COLLAPSIBLE BOLLARD "SCUDO-R"

SCUDO-R Ø115/625

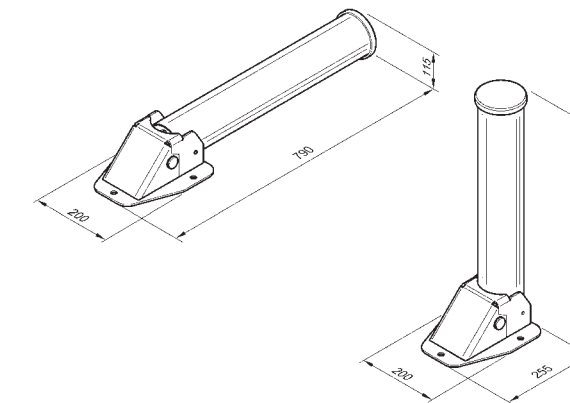

With the latest changes, the new SCUDO-R, is even more simple and functional. Born for the protection and preservation of small private spaces like cars parking, lane, personal access ways and so on. Through a special key mapping, the bollard is lowered allowing the machines to enter in the private area.

The new hand maneuvers, is located on the side of basement and no longer on the front top, making it completely safe and free of sharp edges. Also, thanks to the protective plastic cap of the lock, you avoid accumulations of dirt that might compromise the proper functioning.

Manually operated key

SCUDO-R Ø115-625 INOX
